WILLINGNESS TO PARTER AND SWEAT EQUITY:

We are looking for families who have a heart of service and will be dedicated to the Habitat Mission. Performing Sweat Equity is a vital element for successful homeownership with Harbor Habitat. Partner families initially complete a minimum of 300 hours, including 150 hours on the construction site. This is an extensive, but worthwhile time commitment. The Family Services Department will assist families with developing a workable plan for completing all sweat equity requirements. After completion of sweat equity hours, we ask our families to continuing supporting our Mission by staying involved.

Are you willing to partner with us by participating in the construction of your home and other Habitat homes, attend workshops and training courses that will help prepare you for homeownership, and participate in Habitat events?

Current Debt:

A responsible credit history is important for successful homeownership. Civil judgments, repossessions, and outstanding utility or phone bills are items that we need to know about early in the application process. We can help you identify and possibly help develop a plan to reduce debt. Please tell us if you have these or other major debt issues:

Marital Status:

It is important that we are made aware as soon as possible if your family dynamics might change. Therefore, please indicate your current marital status, and tell us about any possible changes within the next year.
